United States Department of Justice

Dear Mr. Ashcroft:

I am writing this letter today to express my deep concern over the antitrust lawsuit against Microsoft. I believe that the sooner this suit comes to a close, the better. We have spent countless taxpayer dollars on the frivolous pursuit of case and it needs to come to an end.

It is my opinion that the settlement that has been reached in this case is fair. Microsoft will design all future versions of its Windows operating system to be compatible with the products of its competitors. The company will also license Windows out to the top 20 computer manufactures at the same price and on the same terms. This settlement will be ensured by a three-person technical committee, which will monitor Microsoft's future business tactics and their compliance with the settlement.

This litigation needs to end. Please support this settlement. Thank you.

Sincerely,

Jonathan Eskander
